Hi there!

I'm sure you've read a ton of these so I'll keep it short and sweet!

My name is Natassja Jordan and I believe that a role at your company would be an excellent match for my background and interests.

With over 4 years in the entertainment industry, I'm well-positioned to contribute creative solutions, cohesive design, and a spirited energy to your team.

I have been a trainer and a mentor. I am efficient and proficient at process improvement (enjoy working smarter). I have been known to create and write procedures, be reliable and handle short deadlines with a healthy sense of urgency.

I recently graduated from Kenzie Academy's UX Program and am the perfect candidate to train, learn and grow with your company.

My wide ranging experience makes me an invaluable asset to any team. I am detail-oriented, empathetic, always looking for ways to refine solutions, and I never give up. These are all qualities of a great designer. My 10+ years in customer service matched with the various projects that I've completed over the years (apps, websites, blogs, graphic design, audio, film, podcasts, vlogs, etc) allows me to work well with clients and deliver high-quality products.

I look forward to speaking with you. I have attached my resume below.

Thanks for your time.

Natassja
